

Providing Engineering and Automation Solutions

With over 20 years of engineering experience and competence, we are dedicated to providing our clients with excellence and amazing service. We are committed to understanding our clients requirements and deliver projects that meet their expectations.

Why Choose Us

Deep Industry Experience

15y+ in leadership, in project management and investment management across diverse sectors.

Engineering Expertise

From developing innovative solutions and services to improving operational efficiency, our engineering prowess can enhance businesses of all sizes to achieve their goals..

Turnkey Production Solutions

We provide full lifecycle project support from strategy development, design, manufacturing and commissioning.

Rapid Value Creation

We are committed to providing competitive and more effective solutions that will help create a better tomorrow for industry

Our Services

Mechanical

- Production Facility Process & Layout Design
- Mechanical Design
- Technical Drawing and Documentation
- Machine, Fixture, Gripper, Conveyor etc. Manufacturing
- Mechanical Installation and Commissioning

Electrical

- Electrical Layout, Cabinet, HMI etc. Design
- Safety Layout Design, BOM Preparation and Documentation
- Power&Line Supply and Control Cabinet Assy. and Test
- Electrical Installation and Power On
- Electrical Component Supply (cable, module, sensor etc.)
- Electrical Project Check
- Renovation of Current Cabinets

Project Management

- Investment Plan and Feasibility Study for Production Facilities
- Technical RFQ File Preparation
- Project and Operations Planning & Management
- Turnkey Production System Solutions (equipment, cell, line..)
- Aftersales Service Management

Automation & Robotics

- Offline Automation and Robotic Programming
- On Site Automation and Robotic Commissioning
- Safety Check
- Data Analysis & Data Visualization
- Process , Cycle Time and Layout Optimization
- Technical System Support

Your engineering partner

we have successfully delivered projects for the following clients:
